No. 129.

The 22nd January 1857.

The following Extract of a Letter, addressed to the Consul for France at Singapore, by Mr. Magdalaine, an Officer of the Steamer "Duroe," of the French Imperial Navy, dated Sourabaya, 2nd October 1856, is published for general information:—

The position of the Mellish Shoal, which is about 160. Leagues N. West of New Calidonia, according to our observations after the wreck, differs sensibly from that given in the Charts. According to our observations it is in Latitude South 17° 23' and Longitude East of Paris 153° 35'.

In South Latitude 16° 24' and Longitude East of Paris 147° 54' I observed an Islet of Red Sand about a mile in circumference, and saw no Reef round it, but the Sea was exceedingly high.

In South Latitude 16° 36' and Longitude East of Paris 145° 40' I also observed a Reef, level with the water, appearing to have an interior lagoon with bluish water. I could not make out the extent of it, but it was several miles in circumference.

I hope you will find an early opportunity to publish these remarks on the Mellish Shoal, where I think a vessel might easily find anchorage. Capt. d'la Voisiere intended, after our departure, to make a survey of the Reef, which had an excellent entrance on the Western side.

2. A Copy of the Route enumerating the halting places shall be sent to the Civil Officer at the same time with the Indent.

3. A Copy of the Indent and the Route shall immediately be forwarded by the Civil Authority to the Collector of the adjoining District, with enquiries whether he can furnish the Regiment with Carriage, and if so, at what Station. Copy of the Reply shall be forwarded to the Commanding Officer for his information.

4. Carriages to be hired to a convenient stage in the adjoining District, beyond which it is not to be taken unless the Collector of that District shall certify that a relief cannot be furnished.

5. The Civil Authorities are forbidden under any circumstances to furnish Carriage in excess of that entered in the second column of the Table contained in Government Order No. 954 of 1854.

6. Not less than fifteen days' notice shall be given to the Civil Authority before the day the Regiment is to march.

7. As Carriage cannot always be procured at a moment's notice, and as it is but equitable that the Owners thereof should be remunerated from the date from which it may be furnished, it is hereby directed that full hire shall be paid at the established rate of the District from the day on which the Carriage is procured by the Collector or other Officer.

8. The amount of hire incurred from the date the Carts are taken up by the Collector to the date on which they are made over to the Military Authorities shall be charged by the Collector in a bill vouched in the usual manner. The Military Auditor General shall pass the same, retrenching the proportion chargeable to the Regiment from the Pay Bill.

9. Whenever Carriage is engaged to any place half the hire must be paid in advance. The Civil Officer furnishing the Carriage will make this advance before making over the Carriage to the Military Authorities. The amount so disbursed shall be entered in a Bill and dealt with as the amount of hire under the preceding Rule.

10. Back hire at half the fixed rates of the same number of stages returning is to be paid in every instance when Carriage is furnished by Civil Authorities.

11. Unless in cases of emergency such as the breaking down of Carriage, death of Cattle &c. Carriage is not to be exchanged except at the regular Stations along the Road.

12. The Commanding Officer of a Regiment or Detachment shall be held responsible for the full payment of the Carriage furnished on its reaching the destination agreed upon, as well as for securing to each Owner payment of full hire should any delay occur in the Regiment marching, of hire for halts and of back hire as prescribed in Rule 10.

CALCUTTA UNIVERSITY,
The 19th January 1857.

Geological Museum.
IN CONNECTION WITH THE
GEOLOGICAL SURVEY OF INDIA.
HARTING'S STREET, CALCUTTA.

THE Government of India having recently sanctioned a considerable extension of the "Museum of Economic Geology for India," which had for some years existed under the careful Superintendence of Mr. Piddington in connexion with the Asiatic Society of Bengal, the attention of all who may be interested in the study of Geology, and of all who may desire the material improvement of this country, is solicited to the objects of this Institution; and their aid in the promotion of these objects is requested.

In the year 1840, a Museum of Economic Geology for India was established, under the sanction of the Honorable the Court of Directors. Its objects and aim were clearly set forth in a brief statement drawn up by Mr. Piddington, and freely circulated at the time. In conjunction with the Asiatic Society of Bengal, and in their Rooms, it grew into some importance, and gradually became the depository of many good and valuable specimens, illustrative of the mineral wealth of this country. But simultaneously with its growth, the Science of Geology itself was rapidly attaining its present development. All cognate Sciences were spreading their domain, and the results of investigations in each were becoming more widely and more largely known. Since then, also, the study of Mineralogy, of Geology, and of Chemistry, has been introduced as a part of the established course of Education, and the practical applications of these Sciences to Mining and to Engineering generally, will soon be as regularly taught in this country as they have been for years past in Europe.

The extension of the Museum had become, therefore, essential, if it were to keep pace with the progress of knowledge, and to retain any of its value as a means and aid to instruction. With this view, the Right Hon'ble the Governor General in Council has given orders for the formation, on a much more extended scale than hitherto, of a general Geological Collection, with a special view to illustrate the geological structure, the mineral wealth, and the manufacturing resources of this Empire. A commodious house has been rented for the purpose at present, and it is intended that abundant accommodation shall be provided for the Museum in the new building for the University in Calcutta, when the Geological Collection will form a portion of the general Collections of Natural History to be connected with that establishment.

In the Museum now in progress of formation every thing tending to illustrate the Geology of this country, in its widest sense, will find a place. The history of the Science, the progress of its investigations, the nature of its classifications, the phenomena with which it is concerned, the laws of those phenomena, will all be illustrated. The grand series of organisms, the remains of which occur in such abundance in various deposits, will be exhibited, and the whole Natural History of rocks traced out, so far as collections enable this to be done. By the aid of Drawings, such objects as cannot be procured will be made familiar to the Student, and by the use of Maps, the structure of countries, which it would be impossible for many to visit, will be made known.

While thus endeavouring to render the Student acquainted with the principles of the Science, the practical applications of these principles will, at the same time, be fully exhibited. Mining processes, mining products, and the principal metallurgical operations, will also be included, and the comparative excellence of each, so far as possible, made known. The building materials of the Country, and their applications, the localities where used, the durability, the facility of working, the strength, &c., of the stones, will all be examined into. The importance of Mineral Waters must not be overlooked, and the value of these will be determined by careful investigations.

Further, in a country so essentially agricultural as India, the character of the soils and sub-soils, their peculiar adaptation to peculiar crops, their composition, and, in dependence upon this, the exact means of renewing or increasing their fertility; all these are important questions which at once connect themselves with the researches of the Geologist, inasmuch as the natural powers of any soil depend essentially on the source from which that soil has been derived, and therefore on the geological structure of the district.

To enable such enquiries to be effectively carried out, a small Laboratory is attached to the Museum, where such analyses and investigations as may be requisite will be carried on; and it is hoped that most valuable, because accurate and detailed, information may thus be acquired.

Moreover, careful summaries of all existing knowledge on the geological structure of the Country, will be compiled and arranged, so as to facilitate reference. Much has been done in investigating the geological structure of this Country, and very valuable papers have been given to the public, descriptive of various parts of India. But these facts are scattered through various periodicals, are often only incidentally noticed in travels, or can be found only in manuscript among the Records of Public Offices. Many of these are with difficulty intelligible, from the writers frequently calling similar objects by different names, or *vice versa*. It is therefore, necessary to obtain the key to the terms used before these can be compared. It will be an object with the Officers of the Geological Survey to remove this difficulty, and to bring into an accessible form every thing which has been published bearing on the geological structure, the mineral wealth, or the manufacturing industry (so far as this is concerned with mineral products) of this Empire.

The Museum of Geology has been placed in connexion with, and under the same superintendence as, the Geological Survey of India. By this means opportunities will be afforded of procuring a very perfect series of the rocks, fossils, and minerals of the districts visited by that Survey. But the aid of all is solicited in completing such local collections as may illustrate the structure of the several districts. Every one will be able to contribute something of value. Those permanently resident in any locality have infinitely greater advantages and facilities for procuring good illustrations of its mineral structure and products than any visitor could enjoy, and from such we confidently look for much that will prove of great interest and of great value. Every thing which can, in any way, tend to illustrate the rocks, the fossils, the minerals, or the practical applications of these will prove interesting.

Regarding the nature and properties of all specimens forwarded, the fullest information will be freely afforded, on application to the Curator of the Museum. Organic remains will be examined, and, so far as possible, carefully named for contributors, and every facility given for the investigation of any particular subject or any particular line of research connected with Geology.

The formation of a Library of reference, in connection with the Museum, has been sanctioned, and has already made considerable progress. Under proper restrictions, this will be accessible to all Students of Geology, and others interested in such enquiries.

Catalogues of the several departments of the Museum will be issued from time to time. Public Officers, and other persons in all parts of India, are requested to send contributions. All specimens, carefully packed, may be forwarded by the safest and most economical mode of conveyance, addressed to

THE MUSEUM OF GEOLOGY,

No. 1, HASTINGS STREET,

Calcutta.

And it is requested that a communication stating fully the wishes of the donors may, at the same time, be forwarded by post to

THE DIRECTOR OF THE MUSEUM OF GEOLOGY,

No. 1, HASTINGS STREET,

Calcutta.

Rules for Admission of Public, &c.

The Museum will be open daily, excepting Sundays, from 10 o'clock A. M. to 6 P. M.

ADMISSION FREE.

VISITORS are requested to enter their names, and number of party, in a Book provided for that purpose.

The attendants in the Museum are strictly forbidden to speak to, or interfere with visitors in any way, excepting for the protection of the Museum and its contents.

It is particularly requested, that any irregularity or want of civility may be reported at once to the Curator of the Museum.

The collections being exposed for public benefit, it is confidently hoped that the public will feel the importance of carefully preserving what conduces to their instruction and advantage, and will therefore aid the Officers of the Museum in the discharge of their duty.

Students of Geology, or persons desirous of information on any special point, are requested to apply to the Curator at the Museum on Tuesdays and Saturdays, between the hours of twelve and four. In particular cases, this aid will be afforded at any time; but as it is essential that the Officers in charge of the Museum should be able to devote much of their attention to the arrangement of the collections, to the examination of specimens, and to the general duties of their Office, it is hoped that the public will aid in these objects by not interrupting them under ordinary circumstances, at other times than those fixed above.

Gentlemen interested in geological pursuits mines, &c., in special agricultural objects, or in the use of new or untried building materials, &c., who may desire detailed examination of any mineral substance, or definite information for a special object, are requested to apply by letter (post paid) addressed to the *Director of the Museum of Geology*, 1, *Hastings Street, Calcutta*, stating as clearly as possible their wishes. All such communications will be attended to at the earliest possible opportunity, and in the order of their receipt.

Visitors and others are requested to contribute to the Collections every thing which may appear interesting, or locally peculiar.

The servants of the Museum are prohibited, under pain of instant dismissal, from asking for, or receiving, any gratuity whatever, and it is hoped that none may be offered.

The Museum will be open from the 1st day of January 1857.

Legislative Council.

The 21st June 1856.

THE following Bill was read a second time on the 21st June 1856, and was referred to a Select Committee who are to report thereon after the 25th of September next:—

A Bill to comprise in one Act the provisions necessary for the assessment and collection of municipal rates and taxes in the Towns of Calcutta, Madras, and Bombay, and the several stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca.

WHEREAS by special Acts for the Towns of Calcutta, Madras, and Bombay, and the Settlement of Prince of Wales' Island, Singapore, and Malacca, certain rates and taxes are imposed for raising funds for municipal purposes; and whereas it is expedient to comprise in one Act the provisions necessary for the assessment and collection of such rates and taxes: It is enacted as follows:—

I. The provisions of this Act, save so far as they may be expressly varied or excepted by the special Act for any of the said Towns or for the said Settlement, shall apply to the assessment and collection of the rates and taxes imposed by such special Act, and to the Commissioners appointed thereby for the conservancy and improvement of such Town or of any station of the said Settlement; and such special Act and this Act shall be construed together as forming one Act.

II. The Commissioners may from time to time appoint such assessors, collectors, and other officers as they shall think necessary and proper to assist in the execution of this and the special Act, and may from time to time remove any of such officers, and may pay such salaries and allowances to the said officers respectively as the Commissioners shall think reasonable, subject to the approval of the Local Government.

III. The rate or rates imposed upon houses and lands in any of the said Towns or in the said Settlement by the special Act shall be assessed upon an estimate of the annual value of the property liable thereto.

IV. The annual value of the houses and lands liable to the rate shall be computed and ascertained upon an estimate of the gross annual rent at which the same might reasonably be expected to let from year to year. The value of a house so estimated shall not include the value of any machinery contained therein.

V. For the purpose of such assessment as aforesaid, the Commissioners shall from year to year cause a valuation to be made of all houses and lands liable to the rate. Such valuation, estimated as is hereinbefore provided, shall be entered in a book to be kept at the office of the Commissioners, wherein shall also be written in distinct columns the name of the owner of the property; or, if the occupier, and not the owner, is the person liable to pay the rate, the name of the occupier; a designation of the property either by name or number sufficient to identify the same, together with the name of the street or district in which such property is situate, and the amount of the rate assessed thereon.

VI. When the name of the owner or occupier is not known, it shall be sufficient to designate him in the said book, and also in any notice or other proceeding under this Act, as "the owner" or "the occupier" of the property on which the rate is assessed, without further description.

VII. In order to enable the Commissioners to arrive at a fair valuation of any houses or lands liable to the rate, it shall be lawful for the Commissioners to require the owner or occupier

of such houses or lands to furnish them with returns of the rent or annual value thereof; and for the like purpose it shall be lawful for the Commissioners or any person or persons appointed by them for that purpose, at any time to enter on and inspect such houses or lands after having given twenty-four hours' previous notice of such their intention to the occupier thereof; and whoever refuses or to fails furnish any such return for the space of one week from the day on which he shall have been required so to do, or knowingly makes a false or incorrect return; and whoever hinders, obstructs, or prevents any one of the Commissioners or any person appointed by them as aforesaid from entering upon or inspecting any such houses or lands, shall be liable on conviction before a Magistrate to a penalty not exceeding 200 Rupees.

VIII. When the valuation has been completed, the Commissioners shall give public notice thereof, and of the place where the said

book containing the valuation and the rate assessed, or a copy of the said book, may be inspected in the *Government Gazette* (if any), and by advertisement in some newspaper circulating within the town or station, and also by placards posted up in conspicuous places throughout the same; and the person in whose custody such book may be shall permit every person claiming to be the owner or occupier of property included in the assessment, or the agent of such owner or occupier to inspect the book and to make extracts therefrom without payment of any fee; and any such person who wilfully neglects or refuses to permit the same, shall be liable on conviction before a Magistrate to a penalty of fifty rupees.

IX. The Commissioners shall, at the time and in the manner in the preceding Section mentioned, give public notice of a day not less than fifteen days from the publication of such notice, when they will meet at their office for the purpose of receiving complaints against the said valuation and assessment and of revising the same; and all complaints so made shall be enquired into by the Commissioners, and such amendment shall thereupon be made in the said book as to the Commissioners shall appear just and proper.

X. In every case in which no valid objection is made to the valuation and assessment within the said period of fifteen days after such notice and publication, (if no appeal shall be preferred as hereinafter provided,) the entries in the said book contained shall, until the valuation and assessment is altered or amended, be taken as sufficient proof of the due valuation of the property therein described or referred to, and of the rate to be levied in respect thereof.

XI. After the revision of the valuation and assessment has been completed, the amendments made in the said book shall be authenticated by the signature of two of the Commissioners, who shall at the same time certify under their signature that no valid objection has been made to the valuation and assessment in the said book entered, except in the cases in which amendments have been made as shown therein;

and thereupon, and subject to such alterations and amendments as may thereafter be duly made, the rate so assessed shall be deemed to be the rate for the whole year in and for which the assessment is made, and such year shall commence on the 1st day of January.

XII. Provided always that the Commissioners, upon the representation of parties or other information, may at any time amend the said book by inserting therein the name of any person whose name ought to be so inserted, or any property liable to the rate; or by striking out the name of any person or any property not liable to the rate, or by raising or reducing the amount of the rate, or by making any other alteration which will make the assessment conform to the provisions of this and the special Act: and in all cases in which any property is inserted as liable to the rate, or in which the amount of any rate is raised by such amendment, the same shall be considered to have been made at the time when the person interested first received notice thereof.

XIII. The taxes imposed upon vehicles and animals in any of the said Towns or in the said Settlement by the special Act, shall be assessed in the manner hereinafter provided.

XIV. The Commissioners shall from time to time cause to be prepared and entered in distinct columns in a book to be kept at the Office of the Commissioners, and to be open to the inspection of any person interested therein, a list of the persons liable to the payment of such taxes, a description of the vehicles and animals in respect of which they are liable, and the amount of the taxes assessed thereon.

XV. In order to enable the Commissioners to make such list, the Commissioners or any officer authorized by them may send to all persons supposed to be liable to the payment of such taxes a schedule to be filled up with such information respecting the vehicles and animals kept by them as the Commissioners may judge necessary for the assessment of the taxes. The schedule shall be filled up in writing, and signed, and dated, and returned to the office of the Commissioners by every person to whom it is sent, whether or not liable to the payment of such taxes; and whoever refuses, neglects, or omits, duly to fill up and return such schedule within one week from the receipt thereof, or knowingly gives therein any incorrect or false return, shall be liable, on conviction before a Magistrate, to a penalty not exceeding 200 Rupees.

XVI. The Commissioners may summon any person supposed to be liable to the payment of such taxes or any servant of such person, and may examine such person or his servant at a meeting of the Commissioners as to the number and description of the horses and carriages in respect of which such person is liable to be assessed. If the person summoned shall refuse, or, without lawful excuse, neglect to appear in pursuance of the summons, or shall refuse to answer any lawful question of the Commissioners, or knowingly give an incorrect

answer, he shall be liable, on conviction before a Magistrate, to a penalty not exceeding 200 Rupees.

XVII. Appeals against any rate or tax settled by the Commissioners, under the provisions of this or the special Act, shall be heard and determined by two Magistrates, except in the Town of Bombay; and, in the Town of Bombay, by the Court of Petty Sessions. If there be only one Magistrate acting for any town or station, the appeal may be heard and determined by a Magistrate and a Justice of the Peace. But no appeal against a rate settled by the Commissioners under Section XI shall be heard, unless complaint has been previously made to the Commissioners. The mode of proceeding in such appeal shall be the same as that prescribed for the determination of matters referred to two Magistrates, and at Bombay to the said Court, by Act XIV of 1856. Provided that such Magistrates, or such Magistrate and Justice, and such Court, may, if they shall think fit, state a case for the opinion of the Supreme Court or (in the said Settlement) of Her Majesty's Court of Judicature.

XVIII. Every such appeal shall be commenced within ten days after the accrual of the cause of complaint; which shall in respect of any rate be deemed to accrue on the date of the certificate of the Commissioners in the said book; or, in case of any subsequent amendment of the said book, under the provisions of Section XII, upon the receipt by the person aggrieved of notice of such amendment; and in respect of any tax the cause of complaint shall be deemed to accrue upon the receipt by the person aggrieved of a bill for the sum claimed from him.

XIX. The settlement by the Commissioners of any rate or tax, when no appeal therefrom is made as hereinbefore provided, and the adjudication of any appeal under Section XVII, shall be final and conclusive.

XX. When any rate or tax is due, the Commissioners shall cause to be sent to the person liable to the payment thereof a bill for the sum due, which shall also contain a statement of the period and a description of the property or thing for which the rate or tax is charged. If the bill be for any tax, it shall also contain a notice of the time within which an appeal against such tax may be preferred.

XXI. If the Bill is not paid by the person liable to pay the same within five days from the delivery thereof, the Commissioners may cause to be served upon such person a notice of demand in the form (A) contained in the Schedule to this Act, or to the like effect; and if he shall not, within five days from the service of such notice of demand, pay the sum due, and if no appeal shall have been preferred, such sum with all costs may be recovered by distress and sale of the goods and chattels of the defaulter under a warrant in the form (B) in the Schedule, or to the like effect, to be issued for that purpose by the Commissioners.

XXII. The officer charged with the execution of the warrant of distress shall make an inventory of the goods and chattels seized under any

such warrant, and shall give a notice in writing, in the form (C) contained in the Schedule annexed to this Act, to the person in possession thereof at the time of the seizure, that the said goods and chattels will be sold as therein mentioned.

XXIII. If the warrant is not in the meantime discharged or suspended by the Commissioners, the goods and chattels seized shall be sold under the orders of the Commissioners who shall apply the proceeds, or such part thereof as may be necessary, in discharge of the said arrears and costs; and the surplus, if any, shall be returned on demand to the person in possession of the goods and chattels at the time of the seizure. The fees payable upon distraints under this Act shall be such as are set forth in the table of fees in the said Schedule.

XXIV. The goods and chattels of any person from whom any rate or tax is due may be distrained wherever the same may be found for default in the payment of the money due from such person.

XXV. If the sum due on account of any rate has accrued due from the owner of any house or land within the period of one year, and remains unpaid, after notice of demand served upon the owner, the Commissioners may demand the amount from the occupier for the time being of such house or land, and on non-payment thereof, may recover the same by distress and sale of any goods and chattels found on the premises. And in such case the occupier may deduct from the next and following payments of his rent the amount which may be so paid by or recovered from him.

XXVI. No distress levied by virtue of this or the special Act shall be deemed unlawful, nor shall any party making the same be deemed a trespasser, on account of any defect or want of form in the notice, schedule, summons, notice of demand, warrant of distress, inventory, or other proceedings relating thereto, nor shall such party be deemed a trespasser *ab initio* on account of any irregularity afterwards committed by him; but all persons aggrieved by such irregularity may recover full satisfaction for the special damage in any Court of competent jurisdiction.

XXVII. Instead of proceeding by distress and sale, or in case of failure to realize by distress the whole or any part of the sum due in respect of any rate or tax, the Commissioners may sue the person liable to pay the same in any Court of competent jurisdiction.

XXVIII. Every notice, schedule, summons, bill, or notice of demand regarding any assessment, rate, or tax, or any money due in respect of the same, may be served personally upon the person to whom the same is addressed, or be left at his usual place of abode with some adult male member or servant of his family, or, if it cannot be so served, may be put up on some conspicuous part of such place of abode, and shall thereby be deemed to be duly served.

XXIX. No assessment and no charge or demand of rate or tax, made under the authority of this or the special Act, shall be impeached or affected by reason of any mistake in the name of any person liable to pay the rate or tax or in the description of any property or thing liable to rate or tax or any mistake in the amount of assessment, provided the directions of this Act and of the special Act be in substance and effect complied with; and no proceedings under this or the special Act shall be quashed or set aside for want of form in any Court of Justice.

XXX. Whoever wilfully obstructs or molests the Commissioners, or any one of them, or any of their officers or servants, in the performance of their respective duties under this Act, shall be liable, on conviction before a Magistrate, to a penalty not exceeding fifty rupees.

XXXI. Every officer employed by the Commissioners to assist in the execution of this and the special Act, who accepts, or obtains, or attempts to obtain any fee or gratuity whatsoever, other than his authorized salary or allowances, for doing or forbearing to do any official act, or who shall be in any wise concerned or interested in any bargain or contract made by the Commissioners, shall be removed from his office, and shall be incapable of being afterwards employed by the Commissioners, and shall be liable on conviction before a Magistrate to a penalty not exceeding five hundred Rupees.

XXXII. No action shall be brought against the Commissioners, or any of their officers, or any person acting under the direction of the Commissioners, for any thing done or intended to be done under the powers of this or the special Act, until the expiration of one month next after notice in writing shall have been delivered or left at the office of the Commissioners or at the place of abode of such person, explicitly stating the cause of action, and the name and place of abode of the intended plaintiff, and of his attorney or agent in the cause; and upon the trial of any such action, the plaintiff shall not be permitted to go into evidence of any cause of action, except such as is stated in the notice so delivered; and unless such notice be proved, the Court shall find for the defendant; and every such action shall be commenced within three months next after the accrual of the cause of action, and not afterwards; and if any person to whom any such notice is given shall, before action brought, tender sufficient amends to the plaintiff, such plaintiff shall not recover in any such action when brought; and if no such tender shall have been made, it shall be lawful for the defendant in such action, by leave of the Court where such action shall be pending, at any time before issue joined, to pay into Court such sum of money as he shall think fit, and thereupon such proceedings shall be had as in other cases where defendants are allowed to pay money into Court.

XXXIII. The Commissioners shall, as soon after the 1st day of January in every year as may be practicable, prepare a detailed statement showing the nature and amount of the receipts and disburse-

ments on account of the Municipal Fund for the past year, and also a report of their proceedings during that year; and such statement and report shall be printed and published for general information. The accounts of the said funds may, at the request of not less than

Audit of Accounts. rate-payers, be audited by such person as the Local Government shall appoint.

XXXIV. For better enabling the Commissioners to ascertain the amount of fines and penalties payable to them on account of the Municipal Fund under the provisions of Act XIV of 1856, or of the special Act, or of any other law, there shall, in every month, be furnished to them by the authority adjudicating the same a summary of all convictions under the said Acts, or under any such other law, during the preceding month.

XXXV. It shall be lawful for the Commissioners, with the sanction of the Local Government, to borrow and take up at interest, on the credit of the rates and taxes imposed and levied on account of the Municipal Fund, under the special Act, or any other Act passed in that behalf, or of a portion of them, any sums of money necessary for defraying any expenses incurred or to be incurred by them in the execution of any such Act or of Act XIV of 1856; and for the purpose of securing the re-payment of any sums so borrowed, together with such interest as aforesaid, the Commissioners may mortgage and assign over, to the person by or on behalf of whom such sums shall be advanced, the rates and taxes, or the portion of them upon the credit of which such sums shall be borrowed. Provided always that the money borrowed under the authority of this Act shall be borrowed only for works of a permanent nature, and shall not at any time exceed in the whole ten times the average annual sum received and collected in respect of such rates and taxes.

I. The 158th Section of the Act of Parliament 33 Geo. III Chapter 52, and Act XXII of 1841 of the Government of India, are repealed, except so far as they repeal any other Act, and except as to any assessment which shall be unpaid, and as to any proceeding for the recovery of the same which shall have been commenced, before this Act shall come into operation.

II. The assessment on houses, buildings, and grounds, payable under the Statute 33 Geo. III Chapter 52 Section 158, and Act XXII. 1841, shall, until revised and altered under the

provisions of this Act, remain in full force and effect, and shall be levied and recovered as a rate payable under this Act.

III. Act of 1856, entitled "An Act to comprise in one Act the provisions necessary for the assessment and collection of Municipal Rates and Taxes in the Towns of Calcutta, Madras, and Bombay, and the several stations of the Settlement of Prince of Wales' Island, Singapore, and Malacca," is incorporated with this Act; and in construing the said Act as incorporated with this Act, the expression "the special Act"

Military Department, No. 75 of 1856.

OUR GOVERNOR GENERAL OF INDIA IN COUNCIL.

Having considered the proper mode of bringing this Rule into operation in the Company's Service, we have decided that, on becoming Senior Regimental Majors in the Arms of the Service to which they respectively belong at each Presidency, or when their Seniors as such have been promoted to the rank of Colonel, Regimental Majors being Brevet Lieutenant-Colonels shall be allowed to count the time passed in Regimental Command, as specified in the Regulation towards the three years required to qualify a Lieutenant-Colonel for promotion to the rank of Colonel.

Reply to letter dated 21st December 1855, No. 283.
With reference to the instructions which provide that the time of service during any period exceeding one month passed in Command of Regiments by Senior Majors, who are also Brevet Lieutenant-Colonels, may count towards the three years required to qualify a Lieutenant-Colonel to be promoted to the rank of Colonel, Government observe that this Rule is the same as in H. M.'s Service, but that as the constitution of all the Company's Regiments, excepting the European Infantry Corps, differs from that of H. M.'s Infantry Regiments in having only one Major, they request early instructions as to the precise meaning to be attached to the term Senior Major.

Colonels shall be allowed to count the time passed in Regimental Command, as specified in the Regulation towards the three years required to qualify a Lieutenant-Colonel for promotion to the rank of Colonel.

We are, &c.,

PERSONS desirous of working the valuable Diamond Mines of the Maha Nuddee are hereby informed, that after the 1st of January 1857, the privilege will be leased to any one who shall be considered to have made the most eligible offer for the same.

2nd. Besides Precious Stones, Gold is to be met with in considerable quantities, and the party who may rent the privilege of working the Diamond Mines will be entitled to appropriate all Diamonds, Precious Stones and Gold that he may find in the bed of that river within the limits of the Sumbulpore Division during the period of his lease.

3rd. Unless a proportional inducement be offered, a lease will not be granted for a period of more than three years, but applicants are requested to state at what rate per annum they are agreeable to rent the Mines, and how many years' lease they are desirous of obtaining, with particulars of all modifications they may wish made in the conditions now set forth.

4th. Parties proposing to rent the Mines must be prepared to lodge in the Treasury at Sumbulpore one year's rent in advance as security for the fulfilment of the terms of the lease taken up by them, and the rent will be demanded in three instalments yearly. If at any time during the lease, the period of one year, calculated from the date of payment of the last instalment, be allowed to elapse without the payment of an instalment, the security money shall be forfeited and the lease considered to have expired.

5th. Further particulars may be learnt on applying to the Officiating Senior Assistant Commissioner at Sumbulpore.

Notice.

REQUIRED for the Office of the Chittagong Commissioner of Revenue and Circuit a Sheristadar, salary 100 Rupees. Candidates are recommended to make early application, and to forward, written in their own hand, an account of their qualifications and the nature and extent of their education, &c. &c., verified by such Certificates and Testimonials as they are desirous of having inspected. Candidates should bear in mind, that an inferior knowledge of Bengalee will not be considered as compensated for by an English education however superior, and that a less amount of the knowledge acquired at School and out of Books, provided the Candidate has some acquaintance with the mode of conducting business in a Revenue Office, will be preferred to higher attainments unaccompanied with experience. It should also not be lost sight of by Candidates for the appointment, that living at Chittagong is expensive, the climate is bad, and the means of getting away from the Station are only available for a few months in the year.
